

**NATUROCHIM**  
COSMETIC EXPERTISE

# PRESENTATION

## NATUROCHIM S.A.S.

- Privately-owned company founded in 2004
- Enregistered in Evry, France under Nr. 453 183 543
- Located 25km south from Paris
- Assets: 20 000 EUROS
- Designer, manufacturer and distributor of natural and organic ingredients
- Distributor of ingredients for foreign manufacturers
- Ingredients organic certified or approved by ECOCERT GREENLIFE according to COSMOS standards.

# OUR ASSETS

- Technical experience
- Long expertise in cosmetic industry
- Good knowledge of the cosmetic market
- Constant monitoring of the market and its trends

# OUR PRODUCTS

***FUNCTIONAL LIPIDS:***

***BUTTERS, OILS, WAXES***

# BUTTERS OF NATUROCHIM :

## NATURAL-ORIGIN BUTTERS

*Raw materials approved by Ecocert Greenlife , according to COSMOS standard :*

- NAT GASCONY PLUM BUTTER
- NAT HAZELNUT T. BUTTER
- NAT OAT BUTTER
- NAT PISTACHIO BUTTER

COSMOS  
APPROVED

## PREMIUM ORGANIC BUTTERS

*Raw materials certified by Ecocert Greenlife , according to COSMOS standard :*

- PREMIUM ORGANIC ALMOND BUTTER
- PREMIUM ORGANIC APRICOT BUTTER
- PREMIUM ORGANIC ARGAN BUTTER
- PREMIUM ORGANIC AVOCADO BUTTER
- PREMIUM ORGANIC COCONUT BUTTER
- PREMIUM ORGANIC HEMP BUTTER
- PREMIUM ORGANIC OLIVE BUTTER

COSMOS  
CERTIFIED

# NATUROCHIM BUTTERS

## Manufacturing process

A particular oil is selected for its specific properties. It is hydrogenated through a controlled hydrogenation process<sup>(1)</sup>. A pasty solid is then obtained to which the very oil that was selected is mixed in order to obtain the right consistency.

Therefore, our butters are solely made with one specific oil.

*Note: On the market, one can find butters manufactured with cheap mass-manufactured hydrogenated oil from any origin to which a percentage of oil is added that will give the butter its name.*

This can be determined by checking the INCI name.

### **NATUROCHIM'S BUTTERS ARE QUALITY BUTTERS:**

- low acid value: < 10
- peroxide value: < 10 –butters are not oxidized
- stability to oxidation (long shelf life, added Vit E)
- no adulteration risk by hydrogenated oils other than those claimed –the large oil manufacturers process many oils, including those for the food industry. Some of them may be allergenic (Sesame, Soy, etc.), and may contaminate other productions
- in most cases, the final butters are deodorized by water vapor

<sup>(1)</sup> Hydrogenation under mild conditions:

- low temperature and pressure
- very low catalyst content
- does not generate by-products due to cracking or condensation (polymers)
- approved by Ecocert

# NATUROCHIM BUTTERS

## Why use hydrogenation?

Natural butters such as shea butter, cocoa butter, or mango butter occur naturally in plants. They are formed by the plant itself. In other words, they simply need to be extracted — no transformation of the raw material is required.

However, in nature, there is no such thing as plum butter, oat butter, or almond butter. Hydrogenation allows a liquid vegetable oil to be transformed into a more structured material while maintaining its botanical origin.

This process makes it possible to obtain solid or semi-solid textures without introducing ingredients from a different chemical family. In this way, texture and functionality are modified while the plant source remains consistent.

Therefore, thanks to hydrogenation, NATUROCHIM has developed a process, making it possible to obtain a butter from any vegetable oil.

The butter produced through this process offers sensory properties comparable to those of natural butters, while maintaining a fatty acid profile close to that of the original oil.

Processing parameters can also be adjusted to achieve the desired texture.

Natural butters often come from distant regions. This process makes it possible to produce local butters

# NATUROCHIM BUTTERS

## Manufacturing process : Hydrogenation & safety

The hydrogenation of our oils to produce NATUROCHIM butters is carried out in a gentle and controlled manner:

- Low temperature and low pressure
- Reduced amount of catalyst
- No formation of by-products resulting from cracking or condensation reactions (polymers)
- Process approved by COSMOS

This approach ensures that the raw material is respected and allows the production of high-quality ingredients.

In the food industry, hydrogenated oils are known to be harmful to health, as they can contribute to arterial plaque buildup and cardiovascular issues. Some parallels are sometimes drawn with cosmetic products; however, cosmetic ingredients are not ingested but applied to the skin.

The molecular chain length of hydrogenated oils allows them to remain within the upper layer of the stratum corneum (the outermost layer of the epidermis), without presenting adverse health effects.

For these reasons, the term “hydrogenated” appearing in the INCI name should not be a concern in cosmetic formulations, unlike its perception in food applications.

# NATUROCHIM BUTTERS

## Green Chemistry

**The twelve principles of green chemistry provide a framework for sustainable process design.**

The production of NATUROCHIM butters reflects this approach in the following ways:

- Our production site is committed to a sustainable development approach (Principles 1 and 6).
- No hazardous or toxic substances are used or generated during the manufacturing process (Principles 3 and 4).
- No solvents are used during the process (Principle 5).
- The process is optimized with reduced temperature and pressure requirements (Principle 6).
- Our raw materials are natural, non-fossil resources (Principle 7).
- The hydrogenation reaction is unidirectional and generates no by-products (Principles 2 and 8).
- The process uses a selective catalyst in minimal quantities, which is then recycled (Principle 9).
- The production site and hydrogenation process are certified by ECOCERT (Principles 11 and 12).

Altogether, these practices reflect NATUROCHIM's ongoing commitment to sustainable and responsible production.

# NAT GASCONY PLUM BUTTER

**Raw material approved by Ecocert Greenlife , according to  
COSMOS standard**

- Obtained exclusively from the cold-pressed almond oil of dehydrated plum (*Prunus domestica L.*) grown in the Gascony area of South-West France
- Delicious and fruity smell, characteristic of marzipan (Bitter almond)
- Soft solid
- Light yellow to yellowish
- Melting point (°C): 63.0 – 69.0
- Linoleic acid (%): 10.0 – 15.0
- Oleic acid (%): 35.0 – 50.0
- Palmitic acid (%): 3.0 – 7.0
- Stearic acid (%): 30.0 – 50.0
- Vit. E (added) (mg/100g): 200.0
- Spreads easily
- Softening, moisturizing and nourishing properties
- Penetrates the skin quickly, leaving a slight shine
- Applications: Skin care, sun care, hair care, color cosmetics, toiletries

COSMOS  
APPROVED

INCI : PRUNUS DOMESTICA SEED OIL (AND)  
HYDROGENATED PRUNUS DOMESTICA SEED OIL

# NAT HAZELNUT T. BUTTER

**Raw material approved by Ecocert Greenlife , according to COSMOS standard:**

- Obtained exclusively from the oil of toasted hazelnut seeds (*Corylus avellana L.*) grown in France.
- Unique appetizing praline-like flavor
- Pasty solid
- Ivory to yellowish
- Melting point (°C) : 62.0 – 72.0
- Linoleic acid (%): 2.0 – 12.0
- Oleic acid (%): 35.0 – 45.0
- Palmitic acid (%): 2.0 – 10.0
- Stearic acid (%): 40.0 – 55.0
- Vit. E (mg/100g): 200.0
- Spreads easily, soft and no-shiny finish
- Nourishing, moisturizing and emollient properties
- Penetrates quickly the skin
- Applications: Skin care, sun care, hair care, color cosmetics, toiletries

COSMOS  
APPROVED

*INCI: CORYLUS AVELLANA (HAZELNUT) SEED OIL  
(AND) HYDROGENATED HAZELNUT OIL*

# NAT OAT BUTTER

**Raw material approved by Ecocert Greenlife , according to COSMOS standard:**

- Obtained exclusively from oat (*Avena sativa L.*) oil extracted by supercritical carbon dioxide.
- Origin: Finland
  
- Pasty solid
- Yellow-orange to greenish
  
- Melting point (°C): 50.0 – 65.0
  
- Linoleic acid (%): 15.0 – 25.0
- Oleic acid (%): 15.0 – 30.0
- Palmitic acid (%): 15.0 – 25.0
- Stearic acid (%): 30.0 – 45.0
- Vit. E (added) (mg/100g): 200.0
  
- Firm to the touch but malleable when applied
- Anti-inflammatory, anti-itching, anti-irritant properties
- Nourishes and softens the skin
- Gives body to formulas
  
- Applications: Skin care, sun care, hair care, color cosmetics, toiletries

COSMOS  
APPROVED

INCI : AVENA SATIVA KERNEL OIL (AND)  
HYDROGENATED OAT KERNEL OIL

# NAT PISTACHIO BUTTER

**Raw material approved by Ecocert Greenlife , according to COSMOS standard:**

- Obtained exclusively from the refined oil of the fruit of the pistachio tree (*Pistacia vera L.*) grown in the USA
- Soft solid
- whitish to beige
- Neutral odour
  
- Melting point (°C): 62.0 – 68.0
  
- Linoleic acid (%): 10.0 – 25.0
- Oleic acid (%): 20.0 – 35.0
- Palmitic acid (%): 8.0 – 15.0
- Stearic acid (%): 30.0 – 45.0
- Vit. E (added) (mg/100g): 200.0
  
- Spreads easily on the skin and penetrates quickly
- Nourishing, softening and moisturizing properties
- Give a matte effect
  
- Applications: Skin care, sun care, hair care, color cosmetics, toiletries

COSMOS  
APPROVED

INCI : PISTACIA VERA SEED OIL (AND)  
HYDROGENATED PISTACIA VERA SEED OIL

# PREMIUM ORGANIC\* ALMOND BUTTER

**\*certified as 99.7% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained exclusively from organic sweet almond oil (*Prunus amygdalus dulcis* Mill.)
- Pasty solid
- Whitish to beige
- Faint odour
- Melting point (°C): 65.0 – 71.0
- Linoleic acid (%): 5.0 – 25.0
- Oleic acid (%): 30.0 – 50.0
- Palmitic acid (%): 4.0 – 15.0
- Stearic acid (%): 30.0 – 50.0
- Vit. E (added) (mg/100g): 200.0
- Unctuous and silky touch
- Spreads easily on the skin, and penetrates quickly
- Moisturizes and softens the skin
- Soft and velvet feel
- Consistency agent
- Applications: Skin care, sun care, hair care, color cosmetics, toiletries

*INCI: PRUNUS AMYGDALUS DULCIS OIL (AND)  
HYDROGENATED SWEET ALMOND OIL*

# PREMIUM ORGANIC\* APRICOT BUTTER

**\*certified as 99.7% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained exclusively from organic apricot seed oil (*Prunus armeniaca L.*)
- Pasty solid
- Off white to yellowish
- Faint odour
- Melting point (°C): 60.0 – 70.0
- Linoleic acid (%): 5.0 – 25.0
- Oleic acid (%): 35.0 – 55.0
- Palmitic acid (%): 0.0 – 10.0
- Stearic acid (%): 25.0 – 40.0
- Vit. E (added) (mg/100g): 200.0
- Unctuous feel
- Spreads easily
- Nourishes, softens and gives glow to the skin
- Consistency agent
- Applications: Skin care, sun care, hair care, make-up products, toiletries

INCI: PRUNUS ARMENIACA KERNEL OIL (AND)  
HYDROGENATED APRICOT KERNEL OIL

# PREMIUM ORGANIC\* ARGAN BUTTER

**\*certified as 99.6% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained exclusively from organic argan kernel oil (*Argania spinosa L.*)
- Pasty solid
- White to beige solid
- Faint odour
- Melting point (°C): 63.0 – 69.0
- Linoleic acid (%): 5.0 – 30.0
- Oleic acid (%): 15.0 – 35.0
- Palmitic acid (%): 5.0 – 20.0
- Stearic acid (%): 30.0 – 55.0
- Vit. E (added) (mg/100g): 300.0
- Butter with a firm feel
- Spreads easily on the skin
- Penetrates quickly, leaves a dry and matte finish on the skin
- Consistency agent
- Applications: Skin care, sun care, hair care, Make-up products, toiletries

INCI: ARGANIA SPINOSA KERNEL OIL (AND)  
HYDROGENATED ARGANIA SPINOSA KERNEL OIL

# PREMIUM ORGANIC\* AVOCADO BUTTER

**\*certified as 99.5% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained exclusively from organic refined avocado oil  
(*Persea gratissima Gaertn. f.*)
- Soft solid
- whitish to light beige
- Neutral to faint odour
- Melting point (°C): 56.0 – 63.0
- Linoleic acid (%): 4.0 – 12.0
- Linolenic acid (%): 0.0 – 2.0
- Oleic acid (%): 30.0 – 50.0
- Palmitic acid (%): 12.0 – 28.0
- Palmitoleic acid (%): 0.0 – 10
- Stearic acid (%): 15.0 – 35.0
- Vit. E (added) (mg/100g): 200.0
- Butter with a soft and unctuous texture
- Leaves a comfortable and velvety finish on the skin
- Consistency agent
- Applications: Skin care, sun care, hair care, make-up products, toiletries

INCI: PERSEA GRATISSIMA OIL (AND)  
HYDROGENATED AVOCADO OIL

# PREMIUM ORGANIC\* COCONUT BUTTER

**\*certified as 99.78% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained exclusively from organic coconut oil (*Cocos nucifera L.*)
- Pasty solid
- White to whitish
- Neutral to slight odor
- Melting point (°C): 26.0 – 35.0
- Lauric acid (%): 39.0 – 54.0
- Myristic acid (%): 15.0 – 23.0
- Palmitic acid (%): 6.0 – 11.0
- Stearic acid (%): 5.0 – 15.0
- Vit. E (added) (mg/100g): 200.0
- Smooth and nourishing feel
- Penetrates the skin leaving a slight shine
- Consistency agent
- Applications: Skin care, sun care, hair care, Make-up products, toiletries

*INCI: COCOS NUCIFERA OIL (AND)  
HYDROGENATED COCONUT OIL*

# PREMIUM ORGANIC\* HEMP BUTTER

**\*certified as 99.36% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained exclusively from the organic hemp oil (*Cannabis sativa L.*) cultivated in France
- Pasty solid
- Green to greenish
- Faint odour
- Melting point (°C): 62.0 – 72.0
- $\alpha$ -linolenic acid (%): 0.0 – 5.0
- $\gamma$ -linolenic acid (%): 2.0 – 12.0
- Linoleic acid (%): 20.0 – 40.0
- Oleic acid (%): 5.0 – 20.0
- Palmitic acid (%): 2.0 – 10.0
- Stearic acid (%): 35.0 – 50.0
- Vitamin E (added) (mg/100g): 200.0
- Smooth and melting texture
- Spreads easily
- Penetrates quickly the skin and leaving a velvety feel
- Consistency agent
- Applications: Skin care, sun care, hair care, make-up products , toiletries

*INCI: CANNABIS SATIVA SEED OIL (AND)  
HYDROGENATED CANNABIS SATIVA SEED OIL*

# PREMIUM ORGANIC\* OLIVE BUTTER

**\*certified as 99.7% organic by Ecocert Greenlife according to Cosmos standard**

- Made exclusively from organic olive oil (*Olea europaea L.*)
- Pasty solid
- Off white to light green solid
- Faint odour
- Melting point (°C): 55.0 – 65.0
- Linoleic acid (%): 0.0 – 15.0
- Oleic acid (%): 35.0 – 55.0
- Palmitic acid (%): 5.0 – 25.0
- Stearic acid (%): 30.0 – 55.0
- Vit. E (added) (mg/100g): 200.0
- Nourishing, softening and emollient agent
- Butter with a firm consistence, spreads easily on the skin and penetrates quickly
- Leaves a dry and matte finish on the skin
- Consistency agent
- Applications: Skin care, sun care, hair care, make-up products, toiletries

INCI: OLEA EUROPAEA FRUIT OIL (AND)  
HYDROGENATED OLIVE FRUIT OIL

# NATUROCHIM WAXES

## NATURAL WAXES

***Raw materials approved by Ecocert Greenlife , according to COSMOS standard :***

- NAT RICE BRAN WAX
- NAT SUMAC WAX
- NAT SUNFLOWER WAX

COSMOS  
APPROVED

## ORGANIC WAXES

***Raw materials certified by Ecocert Greenlife , according to COSMOS standard :***

- NAT ORGANIC APRICOT WAX
- NAT ORGANIC ARGAN WAX
- NAT ORGANIC CARNAUBA WAX
- NAT ORGANIC WHITE BEEWAX

COSMOS  
CERTIFIED

Almost odourless, natural origin and over 99% organic

# NAT ORGANIC\* APRICOT WAX

**\*certified as 99.80% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained by soft controlled hydrogenation of the organic apricot oil (*Prunus armeniaca L.*)
- Then, the hydrogenated oil is deodorized

- Pasty solid
- Whitish solid
- Faint smell

- Melting point (°C): 67.0 – 73.0
- Linoleic acid (%): 1.0 max
- Oleic acid (%): 3.0 max
- Palmitic acid (%): 3.0 – 9.0
- Stearic acid (%): 88.0 – 97.0

- Can be used in cosmetics to give body to end products

- Applications: Skin care, sun care, hair care, make-up products and toiletries

INCI: HYDROGENATED APRICOT KERNEL OIL

# NAT ORGANIC\* ARGAN WAX

**\*certified as 99,79% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained by soft controlled\*\* hydrogenation of the organic argan kernel oil (*Argania spinosa L.*)
- Then, the hydrogenated oil is deodorized
  
- Pasty solid
- Whitish
- Faint smell
  
- Melting point (°C): 60.0 – 70.0
  
- Linoleic acid (%): 1.0 max
- Oleic acid (%): 3.0 max
- Palmitic acid (%): 10.0 – 20.0
- Stearic acid (%): 75.0 – 90.0
  
- Can be used in cosmetics to give body to end products
  
- Applications: Skin care, sun care, hair care, make-up products and toiletries

INCI: HYDROGENATED ARGANIA SPINOSA  
KERNEL OIL

# NAT ORGANIC\* CARNAUBA WAX

**\*certified as 100% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained from the leaves of a palm tree named Copernicia cerifera (Mart.), indigenous to Northern Brazil.
- Solid
- Yellowish to beige
- Characteristic odor
- Melting Point(°C) : 80 - 86
- Saponification index (mg KOH/g) : 78 - 95
- Acid value (mg KOH/g) : < 7
- Consistency agent
- Film-forming agent
- Enhances the stability and thermal resistance of finished products
- Adds hardness and gloss
- Applications: Skin care, sun care, hair care, color cosmetics and toiletries

INCI : COPERNICIA CERIFERA CERA

# NAT ORGANIC\* WHITE BEESWAX

**\* certified as 100% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained by washing, decolorizing and pressing natural beeswax (*Cera Alba*).
- white to yellowish-white pellets,
- faint characteristic odor
- Freezing point (°C) : 61 – 65
- Melting point (°C) : 62-65
- composed of long chains of saturated esters (C38-C62), fatty acids (C16-C36) and paraffinic hydrocarbons (C21-C35).
- High binding strengt
- excellent emulsification properties
- improves the appearance, emolliency, consistency, barrier function and emulsification of formulas
- Applications: Skin care, sun care, hair care, color cosmetics and toiletries

INCI : CERA ALBA

# NAT RICE BRAN WAX

**Raw material approved by Ecocert Greenlife , according to COSMOS standard**

- Made by winterization process of the rice bran oil (*Oryza sativa L.*)
- Light yellow to yellowish solid
- Melting point (°C) : 75 – 82
- NAT RICE BRAN WAX is composed of very long saturated esters chains made from fatty acids and fatty alcohol.
- Excellent oil gelling properties
- Low level of use
- Excellent substitute for beeswax to make softer and creamier emulsions
- Can also be a useful replacement for Carnauba and Candelilla waxes
- Applications: Skin care, sun care, hair care, color cosmetics and toiletries

COSMOS  
APPROVED

INCI (UE) ORYZA SATIVA BRAN CERA  
INCI (US) : ORYZA SATIVA (RICE) BRAN WAX

# NAT SUMAC WAX

*Raw material approved by Ecocert Greenlife , according to COSMOS standard*

- Obtained from the fruit of the *Rhus verniciflua* ,Stokes
- White to whitish pellets
- Low melting point (°C): 49 - 54
- Mostly composed of triglycerides but also of non-esterified fatty acids and free fatty acids
- Forms a microcrystalline network
- Help the cohesion between the different raw materials and give body to end products
- Imparts unctuousity to emulsions
- Applications: Skin care, sun care, hair care, make-up products and toiletries

COSMOS  
APPROVED

INCI (UE) : RHUS SUCCEDANEA FRUIT WAX  
INCI (US) : RHUS SUCCEDANEA FRUIT WAX

# NAT SUNFLOWER WAX

**Raw material approved by Ecocert Greenlife , according to COSMOS standard**

- Made by winterization process of the Sunflower oil (*Helianthus Annuus L.*)
- Whitish to light yellow solid
- Melting point (°C) : 74 – 80
  
- Excellent oil gelling properties
- Low level of use
- Lowers the greasiness of oils
- Builds a strong network of wax crystals, improving strength and stability of the finish product
- Lowers syneresis
  
- Can be a useful replacement for Carnauba and Candelilla waxes
  
- Applications: Skin care, sun care, hair care, make-up products and toiletries

COSMOS  
APPROVED

INCI (EU) : HELIANTHUS ANNUUS SEED CERA  
INCI (US) : HELIANTHUS ANNUUS (SUNFLOWER) SEED WAX

# NATUROCHIM OILS

## NATURAL OILS

**Raw materials approved by Ecocert Greenlife , according to COSMOS standard :**

- NAT DEODORIZED APPLE SEED OIL
- NAT DEODORIZED OAT OIL
- NAT HAZELNUT T. OIL

COSMOS  
APPROVED

## ORGANIC OILS

**Raw materials certified by Ecocert Greenlife , according to COSMOS standard :**

- NAT ORGANIC DEODORIZED BAOBAB OIL
- NAT ORGANIC DEODORIZED CAMELINA OIL
- NAT ORGANIC DEODORIZED HEMP OIL
- NAT ORGANIC DEODORIZED POMEGRANATE OIL
- NAT ORGANIC DEODORIZED WALNUT OIL
- NAT ORGANIC PLUM OIL
- NAT ORGANIC PROVENCE OLIVE OIL

COSMOS  
CERTIFIED

Almost odorless, natural origin and over 99% organic

# NAT DEODORIZED APPLE SEED OIL

**Raw material approved by Ecocert Greenlife , according to COSMOS standard :**

- Obtained by cold pressing apple cider seeds (*Pyrus malus L.*) from Normandy (France).
- Golden yellow to amber
- Linoleic acid (%): 40.0 – 70.0
- Oleic acid (%): 25.0 – 35.0
- Palmitic acid (%): 5.0 – 15.0
- Stearic acid (%): 00.0 – 10.0
- Vit. E (added) (mg/100g): 200.0
- Improves skin elasticity and capacity to regenerate
- Acts as a conditioner for hair by nourishing it, making it lighter and easier to be styled.
- Applications: Skin care, sun care, hair care, make up products, toiletries

COSMOS  
APPROVED

INCI : PYRUS MALUS SEED OIL

# NAT DEODORIZED OAT OIL

**Raw material approved by Ecocert Greenlife , according to COSMOS standard :**

- Obtained by supercritical carbon dioxide extraction of kernels (*Avena sativa L.*) cultivated in Finland.
- Yellow to orangey
- Linoleic acid (%): 35.0 – 45.0
- Oleic acid (%): 35.0 – 50.0
- Palmitic acid (%): 12.0 – 20.0
- Stearic acid (%): 0.0 – 7.0
- Vit. E (added) (mg/100g): 200.0
- Excellent moisturizing properties
- Softening and conditioning effects for both skin and hair products
- Contains a significant amount of functional compounds which give it several properties (anti-inflammatory, antioxidant, anti-irritant)
- Acts as a conditioner for hair by nourishing it, making it lighter and easier to be styled.
- Applications: Skin care, sun care, hair care, make up products, toiletries

COSMOS  
APPROVED

INCI : AVENA SATIVA KERNEL OIL

# NAT HAZELNUT T. OIL

**Raw materials approved by Ecocert Greenlife , according to COSMOS standard :**

- Obtained by cold pressing of toasted hazelnuts (*Corylus avellana L.*) grown in South-West of FRANCE
- Unique appetizing praline-like flavor
- Golden to orange yellow
- Linoleic acid (%): 2.0 – 12
- Oleic acid (%): 35 – 45
- Palmitic acid (%): 2 – 10
- Stearic acid (%): 40.0 – 55.0
- Vit. E (mg/100g): 200
- Very thin and supple touch
- Spreads easily on the skin leaving a slight shiny film without greasy feel
- Nourishing, moisturizing and emolliency properties
- Strengthens the skin barrier
- Applications: Skin care, sun care, hair care, make up products, toiletries

COSMOS  
APPROVED

INCI: CORYLUS AVELLANA SEED OIL

# NAT ORGANIC\* DEODORIZED ALMOND OIL

**\*certified as 99.8% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained by cold pressing the almond fruits (*Prunus Amygdalus Dulcis* (Mill.) D.A Webb) grown in South-West of FRANCE
- Golden to orange yellow
- Linoleic acid (%): 20,0 – 30,0
- Oleic acid (%): 62,0 – 76,0
- Palmitic acid (%): 4,0 – 9,0
- Stearic acid (%): 0,0 – 3,0
- Vit. E (mg/100g): 200
- Rich in vitamin A, and essential fatty acids
- Helps retain moisture
- Improves a soft and smooth skin
- Nourish and strengthens hair
- Applications: Skin care, sun care, hair care, make up products, toiletries

INCI: PRUNUS AMYGDALUS DULCIS OIL

# NAT ORGANIC\* DEODORIZED BAOBAB OIL

**\*certified as 99.8% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained by cold pressing the African baobab seed (*Adansonia digitata* L.) cultivated in Senegal
- Yellow to golden yellow
- Linoleic acid (%): 12.0 – 35.0
- Oleic acid (%): 30.0 – 50.0
- Palmitic acid(%): 18.0 – 46.0
- Stearic acid(%): 1.0 – 7.0
- Vitamin E (added) (mg/100g) : 200.0
- Light oil with a dry silky feel, leaving a slightly shiny film on the skin
- Nourishing and emollient properties
- Indicated for dry skin, chapped lips and damaged hair
- Recommended to treat stretch marks
- Applications: Skin care, sun care, hair care, make up products, toiletries

INCI : ADANSONIA DIGITATA SEED OIL

# NAT ORGANIC\* DEODORIZED HAZELNUT OIL

**\*certified as 99.8% organic by Ecocert Greenlife according to Cosmos standard**

- Obtained by cold pressing of hazelnuts (*Corylus avellana L.*) grown in FRANCE
- Golden to orange yellow
- Linoleic acid (%): 5,2 – 18,7
- Oleic acid (%): 74,2 – 86,7
- Palmitic acid (%): 4,2 – 8,9
- Stearic acid (%): 0,8 – 3,2
- Vit. E (mg/100g): 200
- Rich in unsaturated fatty acids
- Helps maintain skin hydration
- Nourishes the epidermis and strengthens the skin barrier
- Hydrates and protects the hair fiber
- Prevents hair breakage and restores natural shine
- Applications: Skin care, sun care, hair care, make up products, toiletries

INCI: CORYLUS AVELLANA SEED OIL

# NAT ORGANIC\* DEODORIZED HEMP SEED OIL

**\*certified as 99.8% organic by Ecocert Greenlife according to Cosmos standard**

- obtained by cold pressing organic hemp seeds (*Cannabis sativa* L.) cultivated in France.
- Greenish to gold
- $\alpha$ -linolenic acid (%): 1.0 – 10.0
- $\gamma$ -linolénic acid (%): 10.0 – 20.0
- Linoleic acid (%): 45.0 – 65.0
- Oleic acid (%): 5.0 – 20.0
- Palmitic acid (%): 2.0 – 10.0
- Stearic acid (%): 0.5 – 5.0
- Vitamin E (added) (mg/100g): 200.0
- Light oil with a dry feel, easily penetrates the skin
- Indicated for dry and mature skins, and also for treating skin diseases (atopic dermatitis, psoriasis, eczema, acne)
- Indicated for dull hair and sensitive scalps
- Applications: Skin care, sun care, hair care, make up products, toiletries

INCI : CANNABIS SATIVA SEED OIL
